

I am a Wisconsin resident and I am very thankful for the No Call list we have. Since it has been in effect, my family has been able to enjoy peaceful meal times and to choose the businesses we want to in a manner that is less confusing. We have had bad experiences with telemarketers telling us one thing and then getting a different deal.

Please listen to the consumers and the public--respect our privacy at home and allow the No Call list to continue.

Thank you,

Kate
